STEP 1: Initial Screen

Please select the language of choice and press "OK" button on the remote control to continue.

STEP 2: Resolution Setting

**Please set the appropriate resolution matching the one of your TV.**

STEP 3: Signal Preparations

Please verify once again that all cables are connected according to the user manual; especially make sure that the RF cable is connected to the STB tightly.
**Afterwards press "OK" button on the remote control to continue**

STEP 4: Signal Setup

If you have only one Satellite dish pointing to NileSat or Es'hailSat, please continue by pressing "OK" button and proceed to step 5. If your configuration uses DiSEqC, please align your configuration accordingly.
**The currently defined default configuration is shown on page2.**

Default Configuration

If your configuration does not match the above set-up, change the DiSEqC Port setting to match your set-up.

Note: As beIN services are only available on Es'hailSat and NileSat, at least one of your feeds must be connected to Es'hailSat or NileSat for the STB to work .

Each DiSEqC Port is associated with a specific LNB: DiSEqC Port A with LNB 1, DiSEqC Port B with LNB 2, DiSEqC Port C with LNB 3 and DiSEqC Port D with LNB4.

Highlight "LNB Number" and select LNB "1" to choose the satellite associated with DiSEqC Port A.

Highlight "Satellite" and select the satellite connected to this DiSEqC Port (e.g. Es'hailSat, NileSat, ArabSat…).

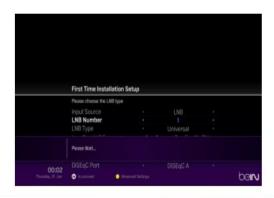

Please repeat the above steps for all your DiSEqC Ports. Please set all unused LNB/DiSEqC ports to some random satellites. It is important to make sure that only one satellite is associated with one LNB. You cannot proceed if two or more LNBs are set to the same satellite!

When your set-up is done please continue by pressing "OK" button on the remote control.

Step 5: Channel Scan

Please wait until the satellite scan is finished. This may take up to 15 minutes. After the scan has finished successfully your STB will tune to the first beIN SPORTS channel

Step 6: beIN

Enjoy your beIN experience

If you are not able to hear any sound or see any picture, please contact beIN Customer Services on: +974 44 222 000
